

The Animal Princess

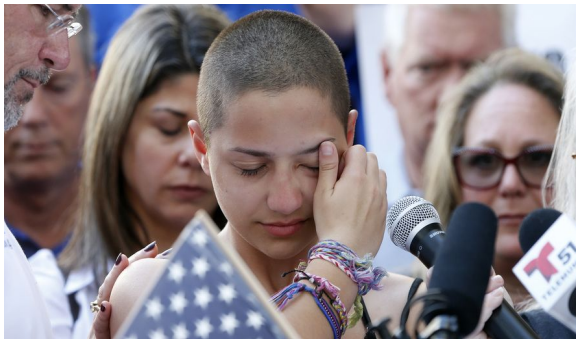

By Hayley

There was once a princess who lived in the forest. Her name was princess Madison but most people who met her just called her Madison. She was very nice. If you have not figured out she was the animal princess. Madison loved animals. When she sang a special melody animals from all over the forest would come because she had things for all the animals in the forest like food, a home, and she was a princess. Madison had two pets herself one is a panda named Angelina and one is an owl called Owlet and both pets listen and were very nice. Madison had a very big palace full of animal fur, feathers and fluff but she didn't mind. One morning Madison had woken up and there was a thunderstorm all the animals were lost except her animals she got out of bed ready to save the animals, her animals were with her also. Madison and her pets were wandering around the forest trying to find the animals and then she bumped into a nice hunter. Madison and the hunter were getting along nicely and then Madison asked "what is your name?" "My name is Sarah. Why are you in the forest it is not raining anymore?" said Sarah "Because during the storm all my pet friends got lost in the very big forest" Madison replied "oh no we need to find them before the other hunters get to them." said Sarah "But there all scattered in the forest." Madison said "then we will go in the forest and find them" said Sarah. So they went on their journey, after a few minutes they bumped into another hunter and her name was Annie and she is Sarah's friend. So the three friends kept walking and then bumped into the little baby fox "there you are foxy" Madison said "she's so cute!!! and small" said Annie "that's why I brought a little bag for them". Then she sang her melody and two animals came running as fast as they could to Madison Lady B and Butter then she sang her melody again and three more pet come running like the others "why is my melody working now but not before?" asked Madison "maybe because all they heard before is the rain but now they can hear you because there is no rain now" said Sarah. Madison called her melody again and four animals came running."Now we need to go home because I have all of you. I think I remember which way to go 2 lefts 3 rights 1 straight and repeat that 5 times so they walked that and found themselves still in the forest let's try to do that once again. On their way home foxy escaped the little animals bag. Madison called her melody and foxy came right back to her arms Sarah and Annie came back with Madison and they all finally were home and there was the most sunlight there could ever be in the world and most of all there was one little hut for each animal and Madison was very nice to Sarah and Annie and let them live with her in her palace and that thunderstorm never happened again and everybody was happy.

(:Emma Gonzalez:)

By Maya

Emma Gonzalez was born on November 11, 1999. Her life might be really nice now but in February 2018 she lost many friends. Lots of people lose their friends because of social issues but in her case her friends lost their lives in a horrible school

shooting. She did a big speech called “We Call BS” in honor of the shooting. The whole speech was her confronting Donald J. Trump with what happened, how bad it was, and what he should do about it. She got a lot of attention from this speech even from celebrities!!!! Zendaya said in a tweet “Thank you for your voice, and for your bravery and honesty.” She has done so many interviews where she shared her strong beliefs. In one of

them, she even shared why she shaved her hair off. You might not find this surprising because she is now known to share what she believes in, even something so simple like wanting to cut her hair off. She said in the interview, “It got really heavy, and it got really hot. It was really hard to take care of.” To convince her parents to let her do this she even made a 10 slide presentation and presented it to her parents. And it worked! Emma Gonzalez is loved by so many of us and has touched us and given us hope for a better future.

Emma Gonzalez's family is made up of 3 kids, a mom, and a dad. She has 2 older brothers. One is fully grown and is making a living in N.Y. The other is in college. Emma is a special kid but she does have a regular family. Her parents love her, take care of her, and worry for her. A lot of times Emma's mom gets worried because of all the weight that Emma has on her shoulders. Emma has to change politicians' minds and everyone is counting on her to do so. Changing the minds of important, rich, full-of-themselves people is really hard to do. Even though this is really hard to do Emma still does not give up on it. She will do whatever it takes to fulfill her goal which is to make America a safe place.

Emma Gonzalez likes tons of fun activities. She will do anything with her hands while watching Netflix. She would do painting, drawing, crocheting, knitting, and even sewing. Emma also is the track team leader and the team leader of many other things in school. She has an extraordinary soul that does both extraordinary and ordinary things.

Philippe Petit's Walk

By Zack

It was a cool and crisp morning at 7:00 AM on August 7, 1979 in New York City . People going to work looked up at the beautiful sky and saw a man walking in the air.that man was walking between the Twin Towers of the World Trade Center. His name is Philippe Petit, a tightrope walker.

Philippe Petit was born on August 13, 1949 in France . As a kid he was inspired by a famous and amazing tightrope walker named Papa Rudy. Even as a ten year old, philippe wanted to be a tightrope walker,wich was something his parents did not want him to do. They wanted him to be a writer.

When he was in France he used to perform on the street. Even though there was already a girl playing guitar for money on that same street, when Philippe came out to perform, everyone watched him and not her. This made the girl very mad. After one of his shows, the girl walked up to him and said, “you took my space and now nobody listens to me!” He apologized and asked the girl out for wine. They fell in love and she continued the journey of the walk with him.

Philippe's childhood dream of being the best tight rope walker came true when he decided to walk between the Twin Towers, an 110 story building in New York City. Leading up to te walk across the Twin Towers, Philippe needed to practice with a smaller walk, so he walked across the Notre Dame Cathedral. During another smaller tightrope walk, he walked across a lake, but was too distracted by fisherman and fell in. Everyone thought he was terrible. He also practiced in the same place that Papa Rudy did which is at a circus. When he was practicing he said to a lot of people “I know it is impossible but I know I am going to do it. ” He was determined to complete this walk across the Twin Towers successfully.

In order to walk across the towers, he would have to study them first. In order to sneak into the Twin Towers and get ready for his big walk, he had to dress in different disguises everyday so no one would catch him. One day, while he was disguised as a construction worker, he accidentally stepped on a nail and got injured. Even though he was hurt, he was still determined to complete the walk. After successfully walking across the rope one time, Philippe decided to go back the other way. Just as he did this, police came on both buildings. Even the police could not scare Philippe off of the rope, and he kept going. Eventually he stopped and the police took him but he was happy and proud of what he did. After this amazing stunt, Philippe Petit was known all throughout New York City. Pictured of Philippe, like the one below, were all over newspapers in the city. People continue to be inspired by what Philippe did, because he truly did what others saw as impossible. Even today, people know Philippe and a movie was even created about what he did called *The Walk*.

Cubic Castles

By Dex

Cubic Castles is a game where you can build and break down realms with kingdoms and cities inside. This is a great game because you can do many things! Some of these things are: playing with friends, building, crafting blocks and materials, and visiting other people's realms. This game you can either play on mobile app or PC/Laptop, which is really good if you can't bring your computer with you but still want to play. If you have a phone, just bring that Instead!

The music in this game is pretty good, but there's not that much of it, unlike games such as Cuphead. You can get pretty cool clothing that you can craft too. You can also buy it. You also can craft blocks to sell and build with too. Now let's talk about making deals. Making deals in CC isn't the easiest thing, because you need to have the supplies that you sell in order to get cubits. To sell the things, you also need a reasonable price so people buy them and you need cubits to get the items, which is harder than you think!

The currency in this game is called cubits. They are little yellow glowing cubes that you can buy stuff with. There is another currency called Recubes which you can't give people unlike cubits. Recubes are green glowing cubes that you can buy farming stuff and other stuff like farm animals and that's basically all you can do with Recubes. But you can't buy Recubes. The best part of the game (in my opinion) is being able to connect with friends online and building stuff like a shop, and creating clans!

Extra

This is the Blue Course

1. How to farm: Farming is easy all you have to do is have a special soil you can buy from people or get from the Cubit store. Then get some seeds and put them in the soil. Next water them with a watering can. Then come back at least every day and when they're done, break them and go to the lobby. Then go to the farmers co-op to cash your crops in for Recubes!
2. Things you will need for a shop: You will need items and glass to put the item in, a cash register or vending machine. If you want an improved shop maybe get a tip piggy, a donation table, and a prize machine. That's it!
3. How to make friends: 1. There might be people asking if anyone sells something like Clothing. 2. You can teleport to friends and meet new ones. 3. You can also meet people at the lobby.
4. When you level up you can get perks every level you get.
5. Now get out there and make a powerful clan!

Wowsers you made it to the end! #Yoylecake

Giannis Antetokounmpo, NBA

Member of the Milwaukee bucks

By Ariel

“Ooh!!! That was a great dunk by Giannis Antetokounmpo! “Giannis Antetokounmpo from Khris Middleton.” It was a 10 point game at Madison Square Garden and the New York Knicks were hosting the Milwaukee Bucks when Giannis Antetokounmpo (pronounced Yanis Antetokoonpo) caught a pass in mid-air and jumped over Tim Hardaway jr. Giannis Antetokounmpo is the 6’11” Milwaukee Bucks point guard. After winning the title for ‘ Most Improved Player,’ Kevin Durant, The second best player in the world, said that he thinks Giannis has the potential to be the greatest. Although he is now an NBA All-Star worth around \$100,000,000, his life hasn’t always been so rich.

Giannis Antetokounmpo, was born on December 6, 1994 in Sepolia Athens, Greece. As a kid, Giannis and his brother Thanasis had to sell toys and watches in the street to help his parents and their two other brothers along. His parents, Veronica and Charles Antetokounmpo, moved from Nigeria to Greece in 1991 looking for a better life. They had illegally immigrated from Nigeria so Giannis and Thanasis were constantly scared about being caught by the police. They would often play futbol at a nearby field. One day a man named Spiros Velliniatis noticed Giannis playing and thought he had a career in basketball. Spiros was a basketball coach who is half German, half Greek. Giannis wasn’t very good at basketball but he was very tall and very athletic. Spiros helped by teaching him the game of basketball and without Spiros, Giannis would not be the great player that he is now.

In 2013, Giannis was drafted 15th overall by the Milwaukee Bucks. He won the NBA most improved player award in 2017, made the NBA all-star team in the 2017-2018 season, made the all-defensive team in 2017, the all-rookie second team in the 2013-2014 season, and the all NBA second team in 2016-2017 season and the 2017-2018 season. Today, 23 year old Giannis has lots of potential in the NBA. Everybody in Greece knows who Giannis is and they always will. Giannis is now a top 10 player and nothing like that poor kid from Athens.
