### Boston Sports Teams

Boston sports players are really good. The Boston football team is great. Tom Brady is the best football player of all time! Julian Edelman is really good for long passes. Rob Gronkowski, also known as Gronk, is known for his touchdown celebration, which is when you take the ball and slam it on the ground! Just like the football players, baseball players are fantastic, even though most are retired. Justin Pedroia is a jaw-dropping second baseman. David "Big Papi" Ortiz was the guy that hits home runs 24/7. Big Papi won the home run contest twice. Babe Ruth was really good, but got much better when he got traded to the Yankees. Also the Boston basketball teams sink three pointers all day. Kevin Garnett is in the Hall of Fame. Isiah Thomas is small but the best three point swisher on the team! Kyrie Irving is a three time all star. Boston sports teams are the best!

### Parts Of The Greek God Family

There are many parts of the Greek God family. One part is major Gods. There are 12 major Gods. Zeus is one major God. He is the God of all gods and the god of the sky. Athena is another major Goddess. She is the Goddess of wisdom and crafting! One last major God is Hephaestus. He is the God of fire and metalwork. Isn't that cool! Another part of the Greek God family is minor Gods. Hecate is one minor Goddess. She is the Goddess of magic and The Mist which is a layer of mist that hides mortals from Gods, monsters etc. Another minor Goddess is Keto. She is the Goddess of sea monsters like Hippocampi. One last part of the Greek God family is Demigods but they're not Gods. They're called demigods because they have some blood from the Gods and some blood from their mortal parent. One demigod is Perseus. He is a son of Zeus and most famous for slaying Medusa. Another demigod is Heracles. He is the most skilled demigod in all of Greek mythology. He is famous for so many things I lost count! Wouldn't it be cool be part of the Greek God family?

### How to Draw a Face

Drawing someone's face is very fun to learn how to do! For the head first draw an oval. Then draw one vertical line midface. Last thing you need to do to set up the head is to draw a "ninja" mask towards the top which is one line on the top of your eyes and one under your eyes. For the eyes draw in the "ninja" mask. On the bottom line draw a "fat almond". Draw it on both sides of the vertical line. For the pupil draw a dot in the middle of the "fat almond" and make the dot bigger and bigger until it's the size you like. Last thing for the eyes, draw a circle around the pupil leaving some white space that you color in lighter than the pupil that was the iris. For the eyebrows make a thick line on the top of the "ninja" mask on both sides. Now, for the nose, on the vertical line draw a line from the eyebrows down. When you get a little farther than the bottom of the "ninja" mask curve out to the right and come back in. The last part is the mouth. Draw a line at the center of the page directly under the nose. Make the line slightly curved up at the edges. At the bottom, under draw an upside down rainbow and for the top draw two mountains but the space between them should not touch the smile. Now you are done! You can design your own hairstyle and add little details if you'd like. Now that you learned how to draw a face you can draw them with so many different expressions and make other cool looks!
