Yakov sent his messengers to his brother Esav. his messengers said to Esav for him.

I am Yakov and I have been living with our uncle Lavan for the past 20 years. I have all these animals and family. I am offering to give you some animals and servants

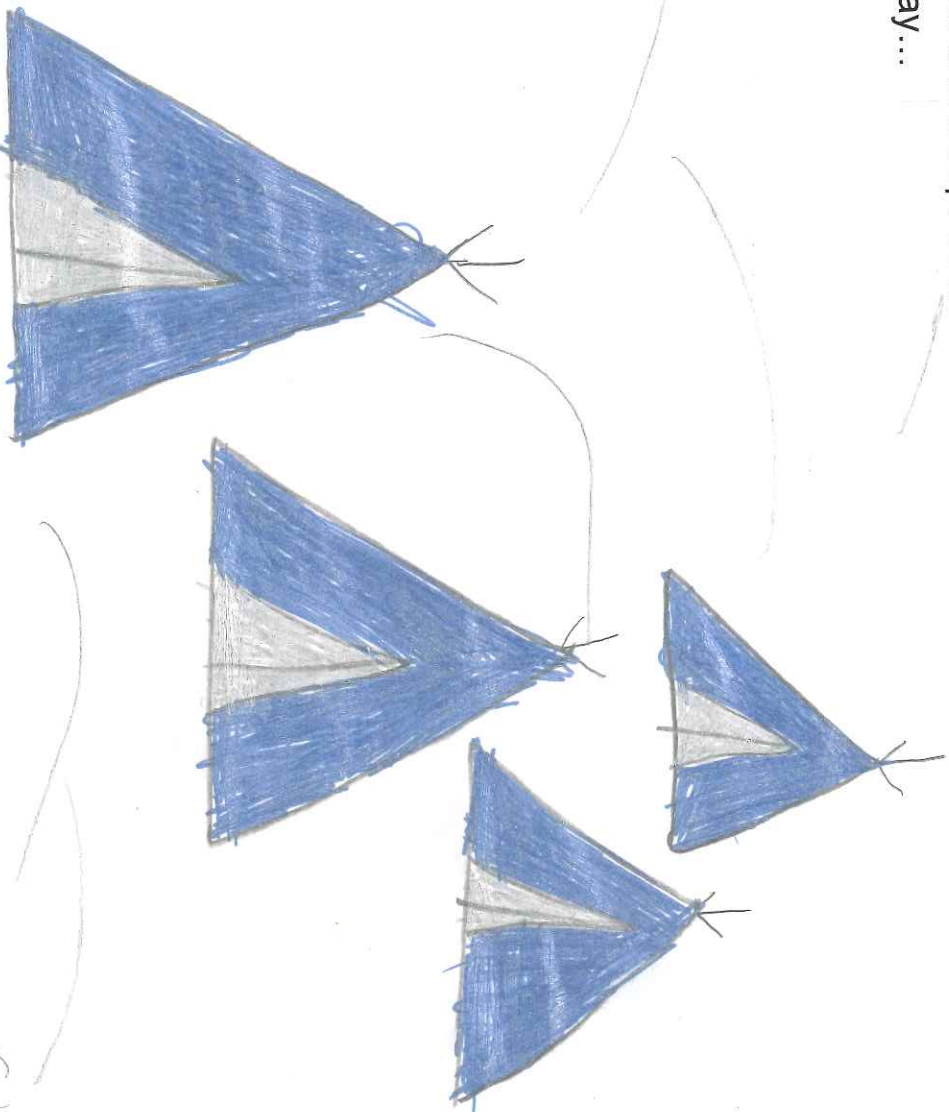

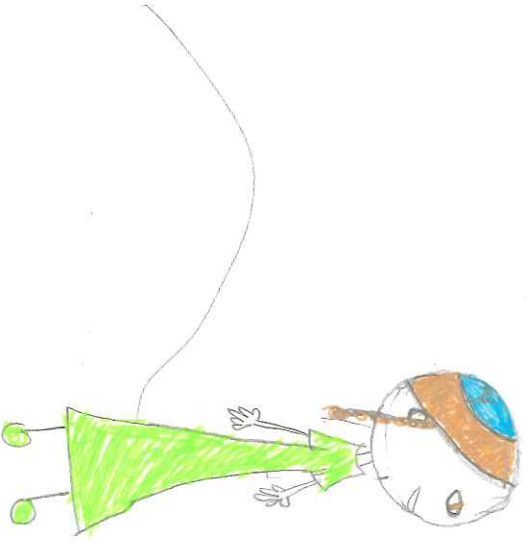

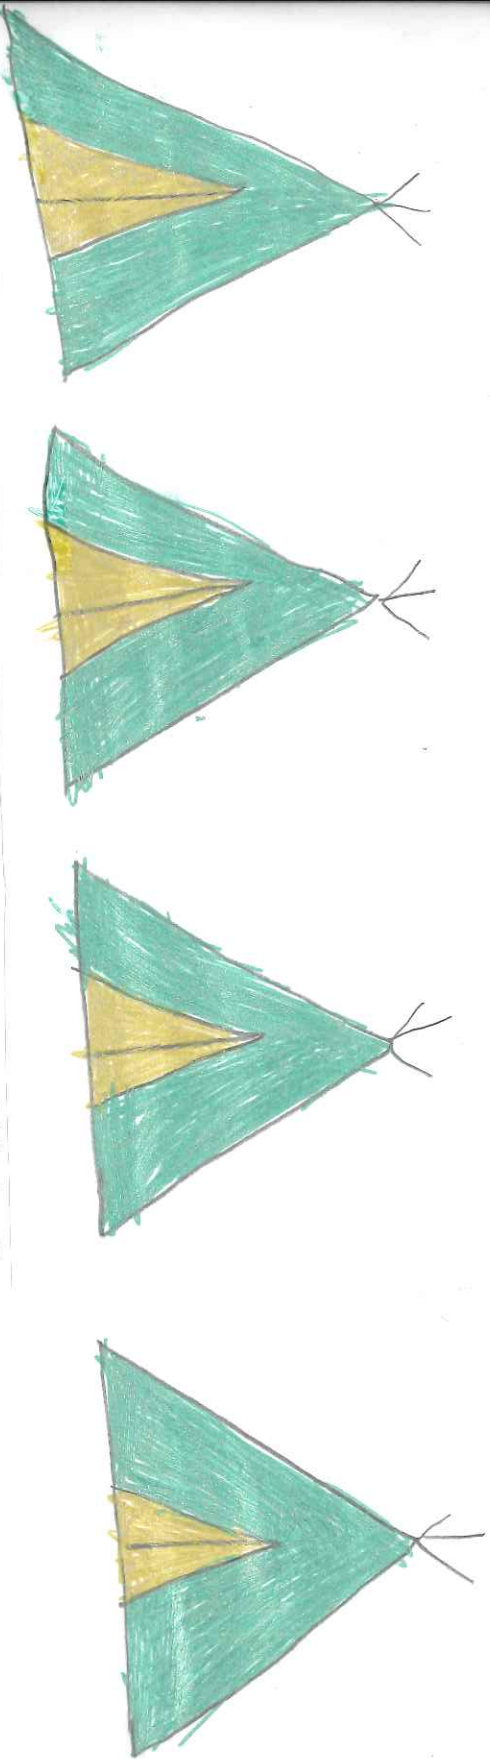

When Yakov's messengers returned they told him that his brother was coming with 400 men.

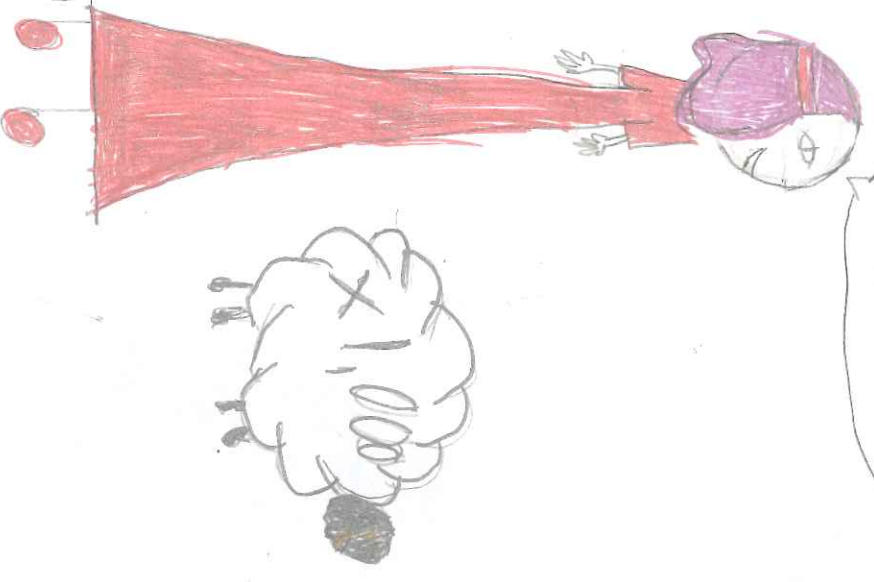

Yakov was afraid that his brother was coming to attack him and his family. With that in mind Yakov took half his family put them in one camp. Then took the other half and put them in a camp far far away...

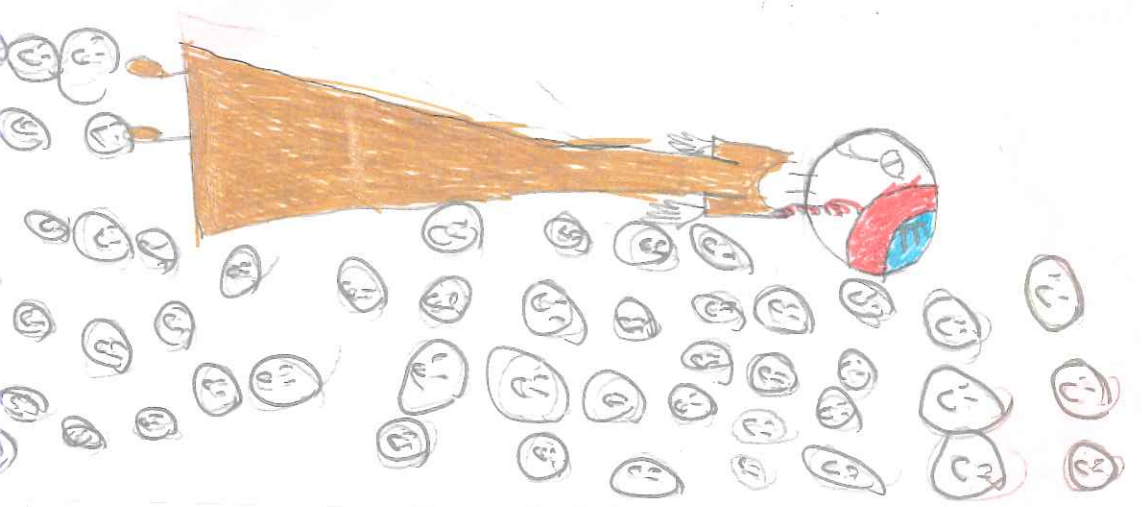

Yakov had his servants take a whole bunch of different animals to give to Esav. He had them all say the same thing which was,

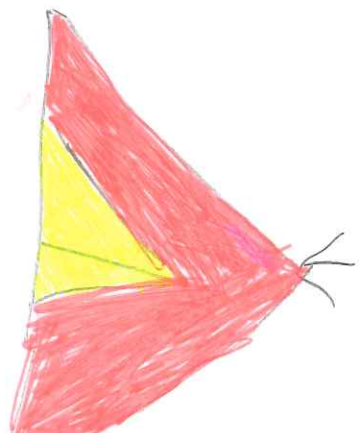

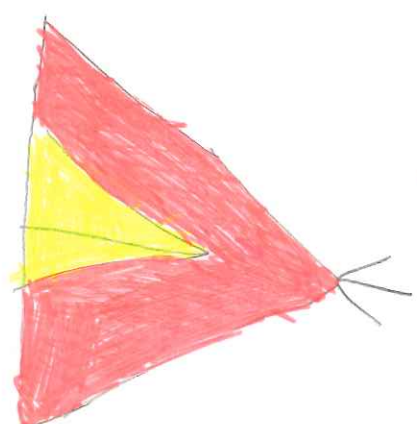

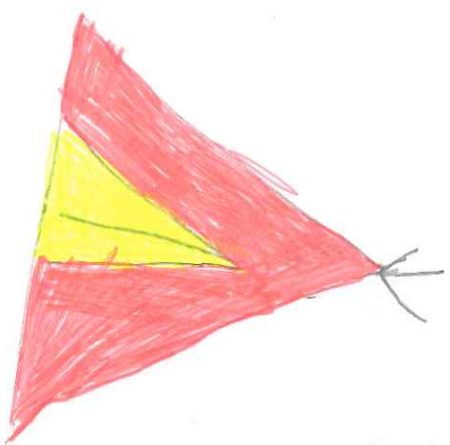

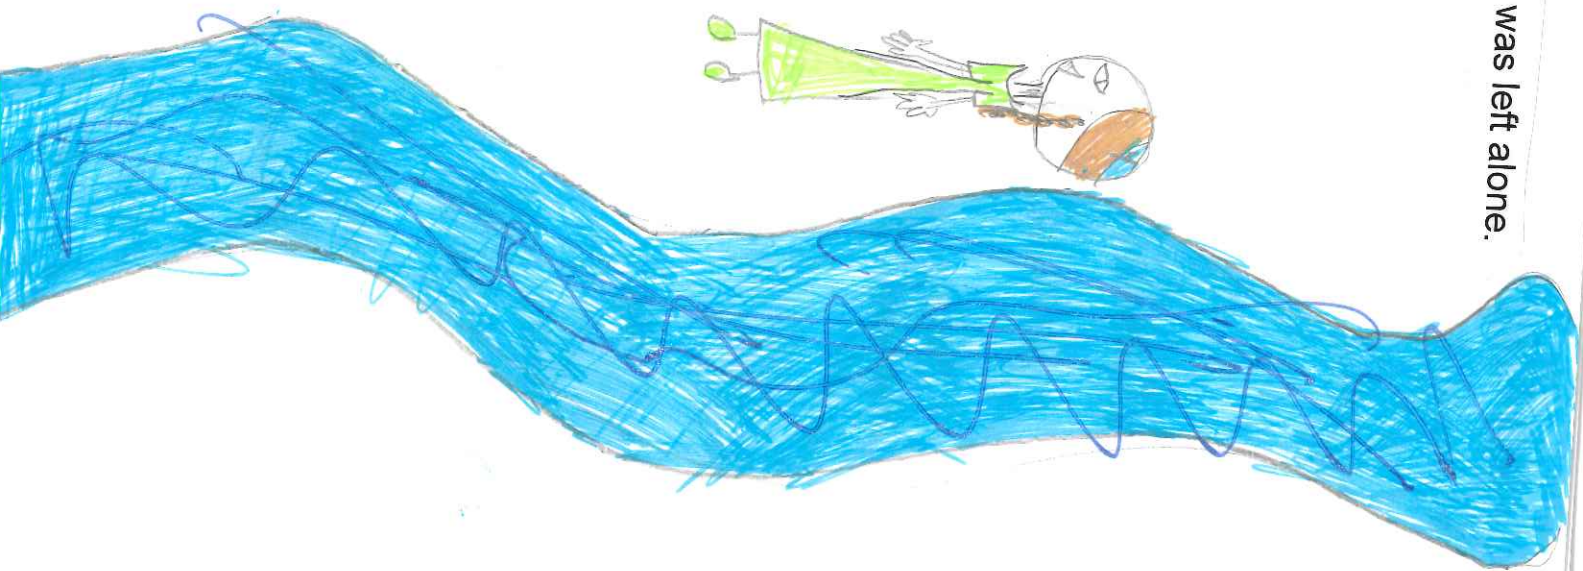

here is a gift from yakov

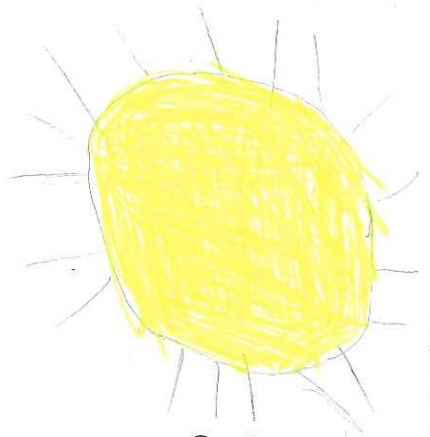

He sent them each in different directions each to meet Esav and his men.

Yakov crossed a small ford. He was left alone.

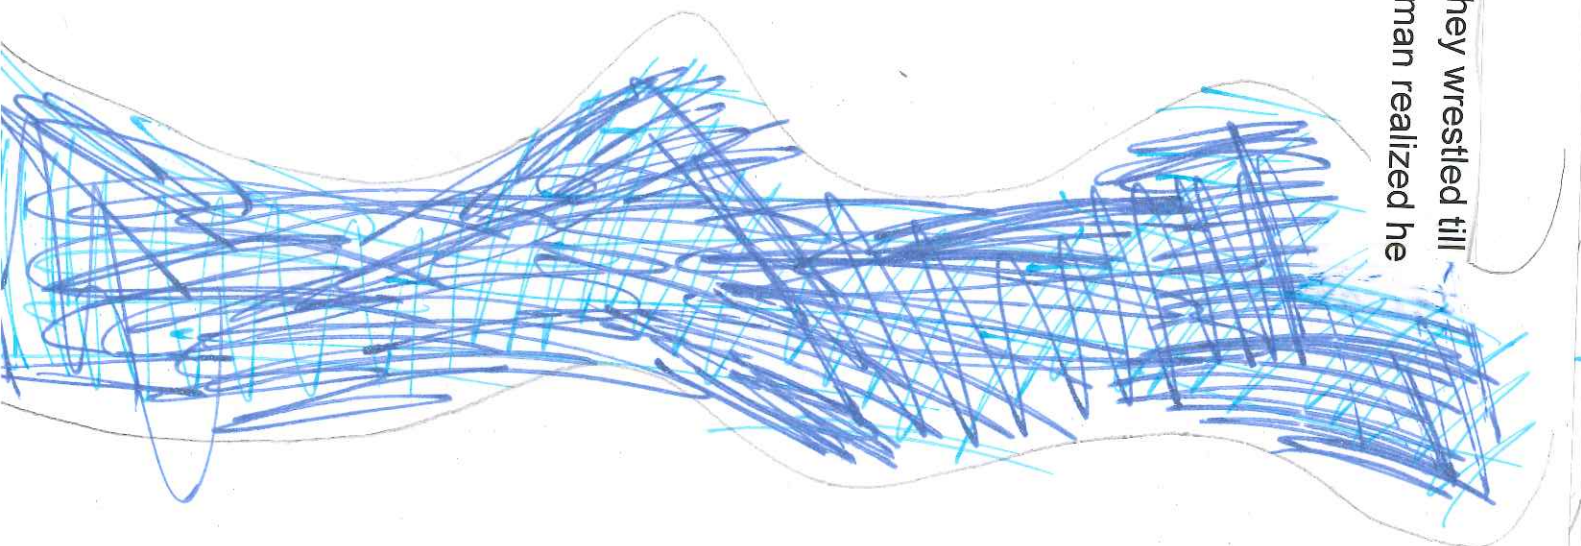

Then this man appeared and started wrestling him. They wrestled till daybreak. After that Yakov pulled a hip muscle. The man realized he couldn't win and Yakov realized to. So yakov said:

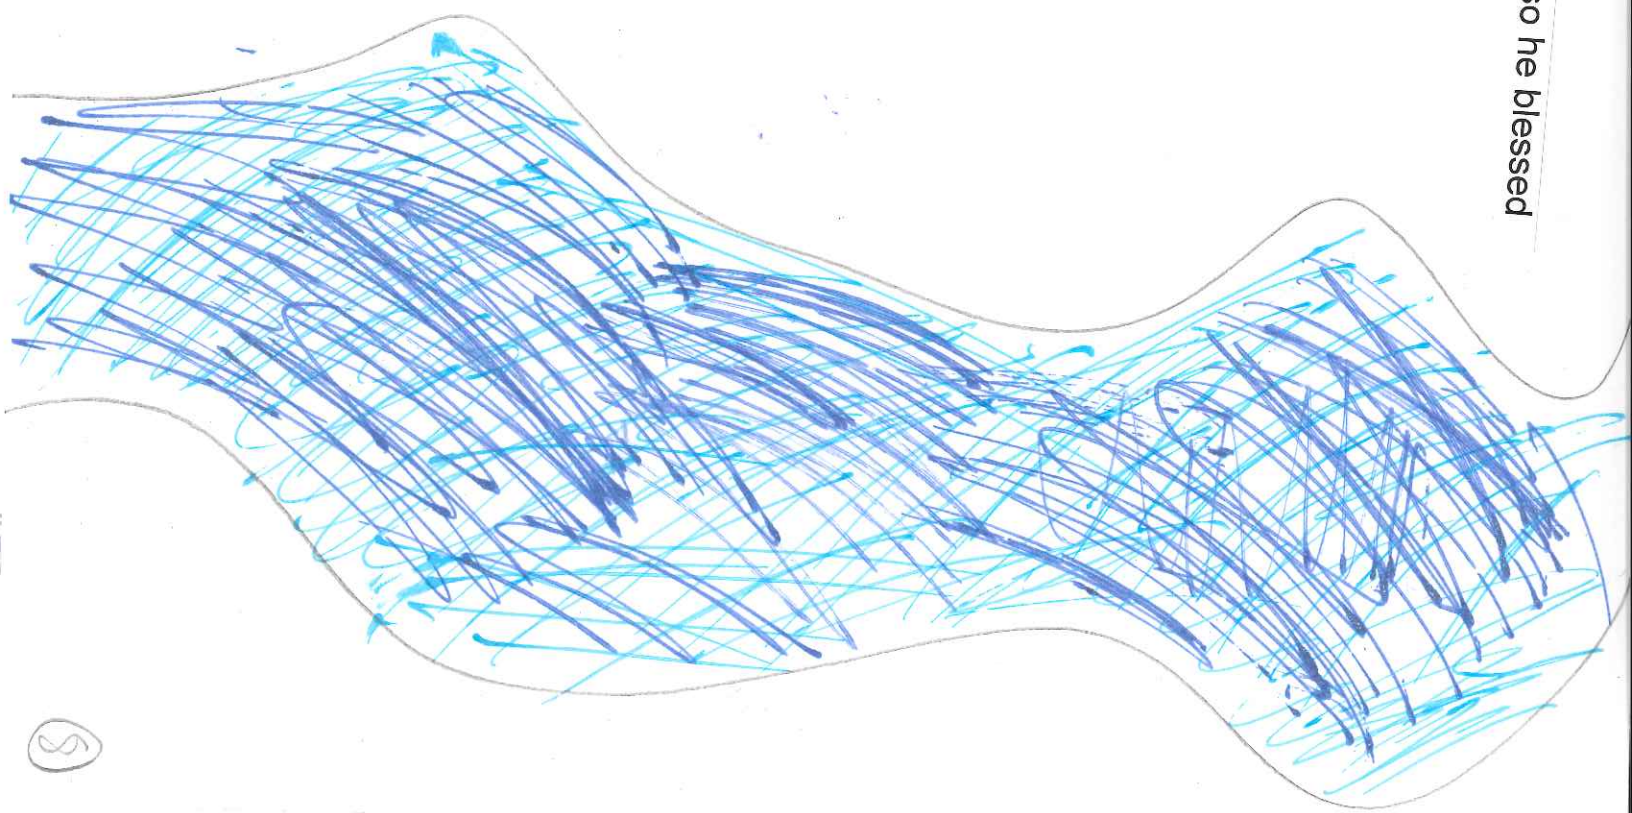

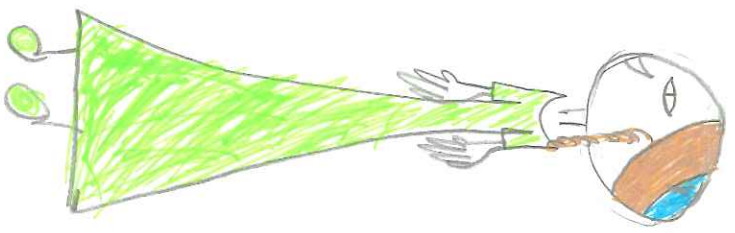

"I will let you go if you bless me".

The man didn't want to get seriously injured so he blessed Yakov. The man said

"I will bless you I bless you with a new name, your new name is YISRAEL."

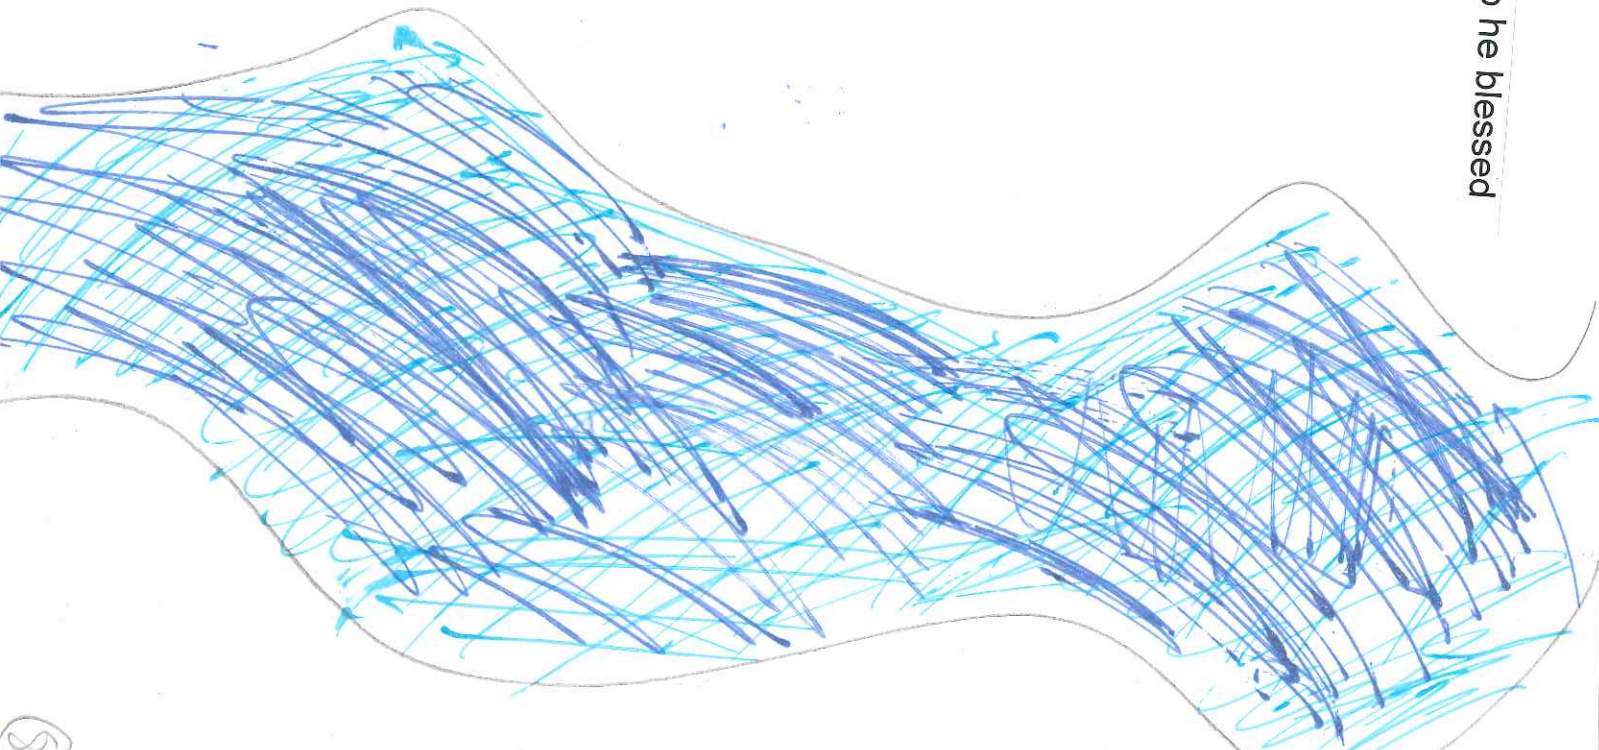

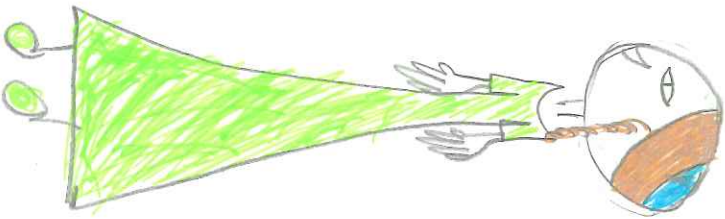

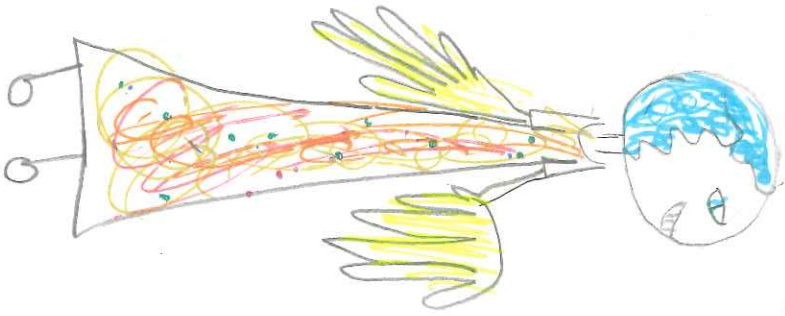

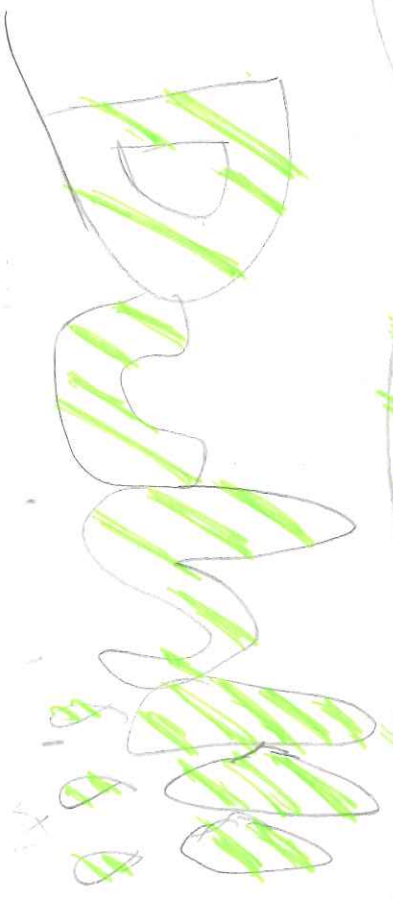

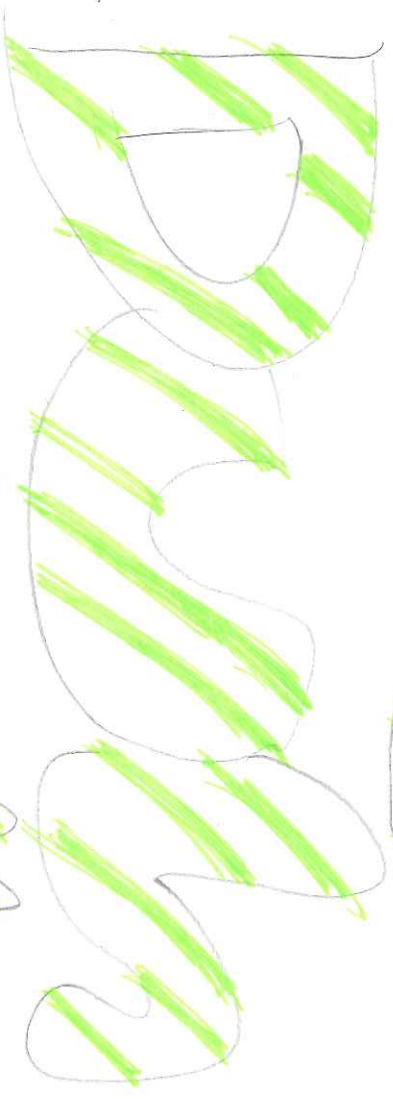

The man didn't want to get seriously injured so he blessed yakov. The man said

"I will bless you I bless you with a new name, your new name is YISRAEL."

Yakov thought he had just come face to face with G-d. The bad news is anyone who comes face to face with G-d doesn't last very long...
