

# Annabelle Island

Annabelle Island is a great place to live. In Annabelle Island people mostly live in houses or apartments made of brick. If you live in a busy city like Performing Place, Fashionista, or Animal Awesomeness you probably live in an apartment. If you live in a suburb city like Pleasant Hills, Candyville, or Desert Desert you probably live in a house. In Swimming Seas there are no houses or apartments because it is just meant for swimming. People on Annabelle Island usually wear tank shirts, shorts, and sneakers. Most people who move to The United Cities (AKA Annabelle Island) from a cold place make a stop at Fashionista because Fashionista has a huge selection of clothes. It is very warm so you wouldn't want to wear a coat. It rarely snows, so unless you are on a high mountain you do not need snow boots either. Citizens eat a lot of fruits and vegetables. You may think that since it is an island they eat a lot of fish. But actually there is a law that no one can eat meat from any animal because other creatures are just as important as humans. Annabelle Island values all creatures.

Because Annabelle Island is near Hawaii, which is part of the U.S., a lot of people who move there speak English, so English is the native language. Do you want to move to Annabelle Island?
