Welcome to Panaco Island an island between Mexico and Panama. The Panacins eat very high quality fish and sushi. The reason why they eat fish and shushi is because water is all around it and it is very acsable to them. Unless you live in Mexico City, then you eat alot of bears. Panacins wear shorts and short sleeves. They wear shorts and short sleeves because it's very hot there. They like to wear white because it deos not attract the heat so much. Alot of panacins have houses like ours except they have 3 story houses. Their house is like ours because they need A.C. and a radiator beause it's cold at night and hot in the day. Also, in Panaco people are bothered by tempature changes. The language is Spanish because the country is surround by Spanish speaking countries and most people originally come from Spanish speaking countries. Some day you should come and visit Panaco Island.
