

לא עליך המלאכה לגמור, ולא אתה בן חורין ליבטל ממנה.

המלאכה = עבודה
 בן חורין -- Free
 ליבטל ממנה — to avoid it, or ignore it

A. This pitgam has two parts (they are separated by a comma). What does each part mean?

1. it is not all your responsibility
to make the world a better place.
2. But do not just ignore it
do something but do it with
other people so you can make
the world a better place.

B. Does this statement make sense together or are these two ideas contradictory (they mean opposite things)?

it makes sense you don't try
to make the world a better place.
Do it with friends if I'm nice to
my paring that want help, if every
one is it will help.

C. The pitgam we have read tells you what you *don't need to* or can't do. Come up with your own pitgam about what you **SHOULD** do on the lines below.

It is your responsibility to be really nice to
other people and then they will be
in a good mood and then they will
be nice...

D. You will make a pitgam poster by writing your pitgam on the back and decorating the sheet.
