

Revision

In my opinion, some people think that when you are
"bored" and you have "your work" to do, you should
not do it. But, when you are sitting and feeling
bored, you should do it. You should not do it when
you are not in the mood to do it.

Revision

In the revision stage people share their work with other people and you revise your work together. The other person tells you what they think you are missing and spelling mistakes. Also if you want to change or add things to your idea you do this in the revision stage.
